## UPLIFTMENT

The purpose of this is to create an environment of being of service to others. To create a responsible individual and citizen that will contribute to society and will leave a legacy.

## EDUCATION

Eight practical short learning programs in agricultural production and management.

## DEVELOPMENT

The development of deep interpersonal insight and skills that are aimed at personal management, building relationships, building relationships in the workplace, impact on the community and leadership.

## BUILD

The building if holistic insight and skills that will add to the construction of a successful career.

### BASE:

The program will be based in Reitz, a warm rural community in the beautiful Northeastern Free State. Reitz has a rich farming heritage and a strong agricultural economy.

The Lentehof hostel at Reitz High School will provide lodging to the students during the year. Students will be in double rooms and three nutritious meals will be provided daily.

The Peritum Agri Gap Year offers a solution to prospective students with an interest in agriculture to combine holistic preparation for adulthood with a year of fun that will pave the way for future success.

A well-structured, safe and well-designed itinerary for holistic development, professional readiness and a strong foundation for further studies in agriculture.

### Holistic preparation for the future stands on five pillars:

## MEMORIES

Adventures will serve as a vehicle for the transfer of skills and the development of relationships. These will be jam-packed with memories and life lessons that will stay with the student for a lifetime.
